Summary

Brand marketing leader with 3+ years building consumer brands from zero across FMCG and health & wellness. I own the full stack — strategy, positioning, GTM, performance, influencer, content, SEO and PR — and run it with founder’s-office ownership: comfortable in ambiguity, fluent in unit economics (CAC, ROAS, retention), and fast. Track record includes launching a brand to INR 8L+ in its first quarter and scaling a wellness brand’s audience 12x in six months.
